The **CBPF460 Paper Folder** offers any business, church, school or print-for-pay center quick, easy set-up, and the versatility to complete a variety of fold jobs in minutes. Jobs are completed exceptionally fast with the CBPF460, folding up to 17,000 pieces per hour! Fully automated fold plates provide one touch set-up of the 18 pre-programmed fold settings or for choosing one of the 27 custom folds that can be stored into memory. In addition, the full-color touchscreen control panel makes the CBPF460 extremely easy to use with a step-by-step user interface that is second to none.

Operators can load up to 500 sheets in the hopper, select their fold, press start and walk away to attend to other important tasks. The CBPF460 will fold the 500 sheets in as fast as 2 minutes and hold the folded pieces on its patented Telescoping Conveyor System.

The patented Multi-Sheet Feeder is an optional feature that allows up to 4 stapled or unstapled sheets to be folded at one time through the dedicated feed system with its own side guides and skew adjustment.

The large full-color touchscreen control panel allows for untrained operators to walk up and start folding with little to no instruction. The CBPF460 advanced software allows for all standard fold types and paper sizes to be customized to meet your particular needs.

Pre-Programmed Standard Folds

Letter

Zig Zag

Half

Gate

Fold Out

Double Parallel

Operating Features

Fast!: Large jobs are processed quickly at speeds of up to 17,000 pieces per hour
Color Touchscreen: The large full-color touchscreen control panel allows anyone to walk up and start folding in seconds
Drop-In Feed System: Three-roller drop-in feed system produces dependable feeding of forms with no fanning required
**Adjustable Stacker Wheels:** Stacker wheels can be manually adjusted to neatly and sequentially stack different paper sizes and fold types
Telescoping Conveyor System: Conveyor can be set between 14" (356mm) and 36" (915mm) in length and holds up to 500 folded pieces
Noise Reduction: Fold plates are enclosed and insulated to reduce operating noise
6-Digit Resettable & 8-Digit Life Counters: Provides maximum audit control
AutoBatchTM: Programmable to process pre-set number of sheets into sets with a delay

Folding Features

Six Standard Folds in Common Paper Sizes: Pre-programmed for 6 popular fold types in letter, legal and ledger paper sizes equaling 18 preset fold settings
Custom Folds: Up to 27 custom folds can be programmed and stored into memoryt
Standard Fold Settings Modification: Even the six standard fold types can be modified individually for each paper size for maximum flexibility and customization
Cross-Folding: A guide is included for two pass operation

Technical Features

Easy-Off Feed Wheel Shaft: Feed wheels can be changed without removing side covers
Seven Point Fold Stops: Fold plates utilize seven point fold stops for crisp, accurate folds of large paper sizes at high speeds
Removable Roller Cover: Easily removed for improved access to fold rollers and exit area

Specifications	
Hopper Capacity	Up to 500 sheets 20# (75 gsm)
Speed	Up to 17,000 sheets per hour – based on 11" (279mm) Z-Fold
Paper Size	Min: 3.5" W x 5" L (88.9 W x 127 L mm) Max: 12.25" W x 18" L (311 W x 457 L mm)
Fold Types	C,V,Z, Gate, Fold Out and Double Parallel
Dimensions	Closed: 33" L x 20" W x 19" H (84 L x 51 W x 48 H cm) Fully Extended: 60" L x 20" W x 19" H (152 L x 51 W x 48 H cm)
Weight	73 lbs (33kg)
Power	110-240VAC 50/60 Hz
Saftey Certifications	UL & CE approved
