IMPORTANT WARNINGS:

*Proper Care and Cleaning of Acrylic – PLEASE READ BEFORE INSTALLING: Acrylic sheeting can be damaged by harsh solvents and cleaners. Only use cleaning products labeled "commercial plastic cleaners", or mild soap and water to remove dirt and debris. When applying the cleaner, use a non-abrasive lint-free or microfiber cloth that won't scratch the surface. Never use products containing ammonia, acetone, carbon tetrachloride, scouring compounds, alcohol, bleach, aromatics, or gasoline. Chemical glass cleaners (even if they are environmentally friendly, organic, or non-scented) are also not to be used. All solvents need to be wiped clean with fresh water and blotted dry to reduce and prevent water spotting. Failure to adhere to the above guidelines can cause yellowing, cracks, and scratches in acrylic sheeting and may give the surface a frosted appearance. It will also void the Limited Warranty – our Limited Warranty does not apply to any damage caused by or the result of improper cleaning, handling, installation, operation, maintenance, pressure washing, accident, fire, natural disaster, explosion, abuse, vandalism, chlorine, chemicals from sprinkler systems, or other external forces. This warranty shall be null and void if any harmful solvents are used to clean.

**Use of Dry-Erase Markers: Water-soluble dry-erase markers are safe for use on these acrylic panels. Other forms of dry-erase markers are not recommended because they will be difficult to erase and could possibly leave stains and ghosting.
