RECLAIM® ACRYLIC COUNTER SNEEZE GUARD – Freestanding

As employees return to the workplace and students return to their schools, we must rethink our environments to help maintain separation and safe distancing.

Luxor's RECLAIM Acrylic Sneeze Guards are protective barriers that come in a variety of smart mounting options. No matter what workspace configuration you're trying to retrofit, we have a divider solution that offers easy installation and superior performance. Easy to clean and constructed of high-quality materials, RECLAIM separation panels are designed to work with your existing furniture, delivering a cost-effective alternative to the replacement of desks, tables, and cubicle walls.

Our freestanding counter sneeze guards feature 8" side panels for wraparound protection. They're perfect for retail, reception desks, training rooms, and more. Rising a full 30" above a tabletop surface, they are tall enough to help protect from sneezes and coughs. The freestanding design means zero installation required. An integrated cutout makes it easy for two people to pass documents and other items back and forth.

Features:

- Creates barriers between people to help safeguard from coughs and sneezes
- Easy assembly with included hardware
- Freestanding design, no mounting is required
- Clear acrylic panels maintain a clear line of sight for open communication
- Cutout at base of the panel allows documents and other items to be passed through
- Easy to clean with a microfiber cloth and a solution of mild dish soap and water or commercial plastic cleaners rated safe for use on acrylics.*
- Safe for use with water-soluble dry-erase markers**

Specifications:

- Dimensions: 24" W x 30" H x 8" D
- Includes: 1 main panel, 2 side panels, and 4 attachment brackets
- Panel material: Clear acrylic
- Bracket material: Powder-coated aluminum
- Panel thickness: 1/4"
- Required tools: Phillips head screwdriver

IMPORTANT WARNINGS:

***Proper Care and Cleaning of Acrylic – PLEASE READ BEFORE INSTALLING:** Acrylic sheeting can be damaged by harsh solvents and cleaners. Only use cleaning products labeled "commercial plastic cleaners", or mild soap and water to remove dirt and debris. When applying the cleaner, use a non-abrasive lint-free or microfiber cloth that won't scratch the surface. Never use products containing ammonia, acetone, carbon tetrachloride, scouring compounds, alcohol, bleach, aromatics, or gasoline. Chemical glass cleaners (even if they are environmentally friendly, organic, or non-scented) are also not to be used. All solvents need to be wiped clean with fresh water and blotted dry to reduce and prevent water spotting. Failure to adhere to the above guidelines can cause yellowing, cracks, and scratches in acrylic sheeting and may give the surface a frosted appearance. It will also void the Limited Warranty – our Limited Warranty does not apply to any damage caused by or the result of improper cleaning, handling, installation, operation, maintenance, pressure washing, accident, fire, natural disaster, explosion, abuse, vandalism, chlorine, chemicals from sprinkler systems, or other external forces. This warranty shall be null and void if any harmful solvents are used to clean.

****Use of Dry-Erase Markers:** Water-soluble dry-erase markers are safe for use on these acrylic panels. Other forms of dry-erase markers are not recommended because they will be difficult to erase and could possibly leave stains and ghosting.
